Moreover, according to the Treasurer's Budget Statement delivered in July, 1896, the revenue for 1896-7 was estimated at £6,678,795, and the expenditure (exclusive of Treasury Bonds repaid) £6,507,944.

† Exclusive of £252,500 realized by the sale of Treasury Bonds for £250,000.

‡ This Debit Balance is covered by sums of £738,866 9s. 9d. and £252,500, realized by the sale of Treasury Bonds for £750,000 in 1892-3, and £250,000 in 1894-5 respectively, and by advances from Trust Funds held by the Government. In the Treasurer's Finance Statements, however, the proceeds of Treasury Bonds having been deducted, the Debit Balance shown at the beginning of the Year is less by £738,866 9s. 9d., and at the end of the Year by £991,366 9s. 9d. than shown above.

NOTE.—Book entries, refunds, &c., are omitted from the transactions.

[1] The items in this Table are summarized according to a principle agreed to at a conference of Government Statists of several of the Australian colonies, held in Tasmania in the month of January, 1875.— [2] Stamp Duties were imposed on the 18th December, 1879. Since the 1st January, 1884, the revenue from Stamp Duties has been estimated, in consequence of the stamps hitherto used to denote Stamp Duty, Postage, and Fees having been made interchangeable, and only one class of stamps for all purposes is to be used in future.— [3] Tax paid in 1894-5 on incomes received in 1894. For further particulars, see page , *post*.— [4] Including interest on loans to local bodies for Waterworks.— [5] For details of this item, see Supplementary Table, *post*.— [6] Exclusive of £140,000 derived from the sale of the Melbourne Police Court.

* The unexpended balance of the Mint Subsidy for 1893, amounting to £5,226 15s. 4d., was not repaid to the Treasury on this occasion until after the 30th June, 1894.

NOTE.—For items of expenditure out of Loans raised under various Acts for the purposes of Water Supply, Railways, Public Works and Buildings, and State School Buildings, see Table of Loan Account Expenditure, page 11 *post*.

[1] The items in this Table are summarized according to a principle agreed to at a conference of Government Statists of several of the Australian colonies held in Tasmania in the month of January, 1875.

[2] Including Governor's salary, and salaries of Ministers, Commissioners of Audit, Agent-General, expenses of Executive Council and Public Service Board.

[3] Including cost of the following Departments:—Chief Secretary, Shorthand Writer, Agent-General, Audit Office, Registrar of Friendly Societies, Treasury, Stores and Transport, and Government Printer.

[4] Including expenditure under the following heads:—Education, Government Statist, Observatory, Government Botanist, Public Library, Museums and National Gallery; Grants to Mechanics' Institutions, Free Libraries, &c., and Grants to Schools of Mines and Design.

[5] Including expenditure under the following heads:—Chief Medical Officer, Central Board of Health, Hospitals for Insane, Industrial and Reformatory Schools, and Grants to Charitable Institutions.

[6] Including £5,620 for surveys in Mallee districts, &c., to be recouped by lessees.

[7] The amounts entered under the head of Special Appropriations in 1885-6 and subsequent years—with the exception of not more than £6,000 annually for salaries of the Railways Commissioners—were paid into the "Railway Construction Account," in accordance with the direction of the Land Acts 1884 and 1890 (48 Vict. No. 812, and 54 Vict. No. 1106, sec. 78), whereby it was provided that all moneys arising from the sale by auction of Crown lands shall be placed to a trust account, the amount standing to the credit of which should be available for the construction of railways. The total amounts paid out of the General Revenue towards the construction of railways up to the 30th June, 1895, was £2,803,740. By an Act passed in 1891 (55 Vict. No. 1213) the proceeds of land sold by auction have been temporarily diverted, from the 1st July, 1891, into the *Land Sales by Auction Fund* until the moneys so paid in shall amount to £1,084,750. The amounts entered under the head of "Votes" represent the working expenses of railways, except £500 in 1886-7, and £4,144 in 1887-8, paid towards construction.

[8] Exclusive of School Buildings, Railways, Water Supply, and of all Public Works paid for out of loans, also of expenditure on the port of Melbourne (which is under the Harbor Trust), but inclusive of endowments of municipalities under the Local Government Act.

[9] The amounts under the head of "Special Appropriations" represent the net expenditure on account of Steam Postal Communication, including gratuities to masters of vessels, interest on Savings Banks deposits, and subsidy for maintenance of the cable from Port Darwin to Penang.

[10] Although the annual subsidy to the Mint is £20,000, portion of that sum has been repaid each year to the revenue.—See Table of General Revenue, *ante*, under the head "Mint Subsidy returned."

[11] The expenditure under the head of "Votes" represents interest and expenses in connexion with the Melbourne and Hobson's Bay Railway Debentures.

[12] Including a vote of £10,000 in each of the years 1884-5 to 1886-7, of £7,000 annually to 1889-90, £8,396 in 1890-91, £11,395 in 1891-2, of £22,100 in 1892-3, of £24,000 in 1893-4, and of £28,500 in 1894-5 to meet deficiencies in the Police Superannuation Fund.

[13] For details of expenditure from votes under this head, see Supplementary Table, *post*. £1,346 in 1886-7, £550 in 1887-8, £938 in 1888-9, £1,902 in 1889-90, £3,125 in 1890-91, and £4,000 in each of the other years named of the amounts in the column for "Special Appropriations" are the unexpended balances of the Pension Fund (Schedule D, Part V.), repaid each year to the revenue.

[14] Including £100,000 in 1887-8, and £178,694 in 1888-9, towards the expenses of the Melbourne Centennial International Exhibition; also £149,984 in 1889-90 for advances to Shires for the erection of rabbit-proof fencing.

NOTE.—The tax imposed is at the rate of 1¼ per cent. per annum on the taxable value. For amount of land tax collected in each of the last eleven financial years, see eighth line of Table of General Revenue, 1884–5 to 1894–5, page 6, *ante*.

* Considerably lower than the actual value. The Municipal valuation is estimated to be about £22,000,000.

NOTE.—The Income Tax was imposed by Act 58 Vict. No. 1374, passed on the 29th January, 1895, and Regulations framed thereunder dated the 14th March, 1895, and is levied on all incomes earned over £200, after deducting all outgoings and expenses incurred in the production of income, also an exemption of £200 allowed to all taxpayers (except absentees). The Act is to continue in force until the 1st January, 1898, and thence until the end of the next ensuing session of Parliament. The rates of tax, which are fixed annually, were as follow for 1894–5 and 1895–6 :—

Taxable Amount.	Rate of Tax on Incomes derived from—	
	Personal Exertion.	The Produce of Property.
Up to £1,200	4d. in £1	8d. in £1
£1,201 to £2,200	6d. in £1	12d. in £1
£2,201 and over	8d. in £1	16d. in £1

* In 1895 the number of non-taxable returns received, *i.e.*, of persons receiving less than £200 but carrying on business as principals, was 71,450. In the same year the number of absentees taxed was 6,551, who, not being allowed the exemption of £200, were taxed to the full extent of their net income. The tax payable averaged 4¼d. in the £1 on the taxable amount derived from personal exertion, and 8⅜d. in the £1 on that derived from property.

† The figures for 1894 are approximate, but those for 1895 are the result merely of a rough estimate, based chiefly on the average rates given in the latter part of the preceding footnote.

NOTE.—The net income is £200 more than the taxable amount, except in the case of absentees.

* Of these 17 have incomes over £10,000, of whom 7 pay on personal exertion, tax to the amount of £5,033, equivalent to an aggregate income of £158,340, and 10 on property, tax to the amount of £11,089, equivalent to an aggregate net income of £176,840. The highest amounts of tax paid were £1,109 on personal exertion, and £2,861 on property, equivalent to net incomes of £34,320 and £43,965 respectively.

† Allowing for 1,092 cases in which the same taxpayers are assessed on income from both personal exertion and produce of property, the number of individual taxpayers was 30,090.

NOTES.—(1) Occasionally annual allowances are voted in addition to those paid from Special Appropriations, and hence the total number of pensioners is fewer than that of pensions. This happens chiefly in the Railway Department where extra allowances were voted as follow:—One of £9 in 1886–7, 1 of £11 in 1887–8, 4 for £120 in 1888–9, 1 of £68 in 1889–90, 6 for £136 in 1890–91, 8 for £184 in 1891–2, 10 for £158 in 1892–3, 11 for £146 in 1893–4, and 12 for £174 in 1894–5.

(2) Police and Pilot pensions are not included, being payable out of special funds. The endowment payable out of the General Revenue to the Police Superannuation Fund, under Act 54 Vict. No. 1127, is £2,000 per annum; but in addition to this the following amounts in aid have been paid out of Votes in the years named:—£10,000 per annum from 1883–4 to 1886–7; £7,000 per annum from 1887–8 to 1889–90; £8,396 in 1890–91; £11,395 in 1891–2; £22,100 in 1892–3; £24,000 in 1893–4; and £28,500 in £1894–5. No Government contribution is made to the Port Phillip Pilot Sick and Superannuation Fund. For number and amount of Police and Pilot pensions, see pages 51 and 52, *post*.

(3) For list of Pensions existing on the 30th June, 1894, see issue of this Part for 1894, page 24 *et seq*.

* Including the superannuation allowance of a late Clerk of the Parliaments, pensions under the Commissioners of Audit, Officers of Parliament, and Public Service Board Acts.

† Including the pensions of Lady Darling, of the late Mrs. Petrie, of Ministers relieved from office on the introduction of Responsible Government and on political grounds, of ex-Supreme Court Judges, and the Superannuation Allowance of a late Master-in-Equity.

‡ Including special allowances to ex-Constables of Police, Widows of Constables shot by the Kelly Gang of outlaws, &c.

§ Including pensions under Victorian Railways Commissioners Act.

NOTE.—Pensions and gratuities to the police are payable under the Police Regulation Act (54 Vict. No. 1127) out of a fund called the Police Superannuation Fund. This fund is maintained by an income of £2,800 from the investment of £70,000 in Government Stock, by an endowment of £2,000 from the consolidated revenue, by a moiety of fines inflicted by the courts of petty sessions, by a reduction not exceeding 2½ per cent. from the pay of the force, and, when the foregoing sources are insufficient, by further grants in aid from the consolidated revenue. In 1894-5, the ordinary receipts were as follow:—Interest, £2,800; Government endowment, £2,000; fines, £3,867; deductions from pay (at 2½ per cent.), £5,553; Government subsidy voted to supplement endowment, £28,500; total, £42,720. The balance at the credit of the fund on the 1st July, 1894, was £73,006; and on the 30th June, 1895, £77,271 (including £70,000 invested in Stock). During the last eleven years it has been necessary to vote £145,391 (exclusive of endowment) in aid of the fund, or an average of £13,208 per annum. See page 40, *ante*.

Total	5,156	30,676

* Chiefly imported.

Note.—It has been roughly estimated by an expert that about 20 per cent. of the gold and silver used for jewellery consists of old metal broken up and re-melted Coined gold is also used in considerable quantities for jewellery, but the gold or silver required for other purposes is usually obtained from the Mint in the form of bar, sheet, &c.

D.—Gold and Silver issued by Melbourne Mint to Jewellers, etc., 1895.

	Standard ozs.
Gold	1,375½ (·9167 fine)
Silver	25,305 (·925 „)

Note.—About one-half of the silver was sold to makers of nitrate for photographic and other purposes.

E.—Value of Articles used by Jewellers, etc., 1891.

According to the Census of 1891 the value of articles used by goldsmiths, jewellers, and electroplaters during the year 1890-91 was £142,447, and that of articles produced £190,675. The value of precious stones, &c., used would, however, be included in the amount.

* Amount not stated in the releases.

NOTE.—The figures in this table, which have been furnished each year by the Registrar-General, do not express the full amounts secured and released in each year; the reason being that the amounts are frequently not given, especially in regard to live stock, wool, and crops released, and in the case of which, although the mortgages or liens may have been paid off, the mortgagors seldom take the trouble to have the releases registered, as the securities relating to wool and crops lapse after the expiration of twelve months from date of the same.

NOTE.—In this return, marriages celebrated according to the rites of the Free Church of England (Victorian Free Church) are combined with those of the Church of England; those celebrated according to the rites of all classes of Presbyterians are grouped together, as also are those celebrated according to the rites of all classes of Wesleyans. Under the head "Other Sects" are grouped marriages celebrated according to the rites of the Primitive Christians, the "Church of Christ," the Catholic Apostolic Church, the New Church, the Moravian, Union, Salvation Army, and unattached Churches, &c.

* The increases in 1894 and 1895 under "Presbyterians" and "Other Sects," and in 1895 under "Independents," were in consequence of a large number of marriages contracted through the medium of matrimonial agencies, having been solemnized by ministers of those denominations; hence, also, the falling-off under "Lay Registrars." In 1895 no fewer than 1,185 marriages were celebrated by clergymen who were accustomed to act on behalf of matrimonial agencies, viz., 363 according to the rites of the Presbyterian Church, 658 of the Church of Christ, 157 of the Independent Church, and 7 of the Primitive Methodists.

NOTE.—The above classification, which has been in use since 1886 in Victoria, was framed by the Registrar-General of England some years since, on the basis of the Nomenclature drawn up by a Committee of the Royal College of Physicians—the second edition of which was published in 1885. In order to facilitate the classification of the causes of death in Victoria according to this method, a nosological index suitable thereto has been compiled by the Government Statist, and was issued in the early part of 1887, which was followed by a revised edition in 1892. For further information respecting this classification, see *Victorian Year-Book*, 1886-7.

NOTE.—In the above table, the deaths from each cause, recorded prior to 1886, under the old system of Nosology, have been re-arranged, so as to agree with the system since in use. The number of diseases under the new classification being considerably larger than under the old, it has not been possible to give the numbers under every cause of death. The respective heads under which those diseases, recorded but not specially enumerated in former years, are now arranged are indicated in the following notes:—

(*a*) "Epidemic Rose Rash" (Class I., Sub-Class 1) and "Cellulitis" (Class VI., Sub-Class 11) included with "Other Diseases of the Integumentary System" (VI., 11).

(*b*) Under the head of "Septicæmia and Pyæmia" (I., 6) it is possible a few cases of "Mumps" and "Other Miasmatic Diseases" (I., 1) may be included.

(*c*) "Others from Vegetable Parasites" included with "Others from Animal Parasites."

(*d*) "Scurvy" (III.) is included with "Purpura" (IV.).

(*e*) "Lupus" (VI., 11) included with Cancer (IV.).

(*f*) "Anæmia, Chlorosis, and Leucocythæmia" (IV.) distributed over other heads, viz.:—Anæmia with "Dropsy" (VIII.), Chlorosis with "Diseases of Menstruation" (VI., 8), and Leucocythæmia with "Other Diseases of the Circulatory System" (VI., 3).

(*g*) Prior to 1886 "Diabetes Mellitus" (IV.) includes cases of "Diabetes Insipidus," now classed with Diseases of the Bladder" (VI., 7).

(*h*) "Atelectasis" (V.) included with "Debility" (VIII.).

(*i*) "Softening of the Brain" (VI., 1) and "Diseases of the Ear and Eye" (VI., 2) included with "Other Diseases of the Nervous System."

(*j*) "Laryngismus Stridulus' (VI., 1) included with "Laryngitis" (VI., 4).

(*k*) "Epistaxis and Diseases of Nose" (VI., 2) included with "Other Diseases of the Respiratory System" (VI., 4).

(*l*) "Senile Gangrene" (VI., 3) and "Bedsore" (VI., 11) class under "Mortification" (VIII.).

(*m*) "Valvular Disease," "Hypertrophy of Heart," "Angina Pectoris," and "Syncope," classed as "Other Diseases of the Circulatory System."

(*n*) "Other Diseases of Larynx and Trachea" distributed over "Laryngitis" and "Croup."

(*o*) "Stomatitis," except in the few cases given, included with "Other Diseases of Stomach, &c."

(*p*) "Diseases of the Lymphatic System" (VI., 6) distributed over other heads.

(*q*) "Addison's Disease" (VI., 6), "Uræmia," "Hæmaturia," and "Disease of Prostate" (VI., 7) included with "Other Diseases of the Urinary System" (VI., 7).

(*r*) "Pelvic Abscess" and "Perineal Abscess" (VI., 8) included with "Abscess" (VIII.).

(*s*) "Caries, Necrosis" (VI., 10) included with "Others" of same Sub-Class.

* For cases of Diphtheritic Croup and Croup, see Class VI., Sub-Class 4, *post*.

† Including Hæmoptysis.

‡ These deaths occurred in the Sanatorium, Williamstown, in 1884, but were not registered until 1885.

§ Two of the cases (including 1 "Vermin-bite") in 1887, 1 in 1893, and 1 in 1894, but not one in 1891, 1892, or 1895, were due to insect bite. The numbers in other years were not noted.

‖ Including 1 case of justifiable homicide (shot by police) in 1891, 1 case of justifiable homicide in 1893, and 1 case of justifiable homicide (a burglar shot by a householder), in 1894.

NOTE.—In the above table, the deaths from each cause, recorded prior to 1886, under the old system of Nosology, have been re-arranged, so as to agree with the system now in use. The number of diseases under the new classification being considerably larger than under the old, it has not been possible to give the numbers under every cause of death. The respective heads under which those diseases not specially enumerated in former years are now arranged are indicated in the following notes:—

(*a*) "Epidemic Rose Rash" (Class I., Sub-Class 1) and "Cellulitis" (Class VI., Sub-Class 11) included with "Other Diseases of the Integumentary System" (VI., 11).

(*b*) Under the head of "Septicæmia and Pyæmia" (I., 6) it is possible a few cases of "Mumps" and "Other Miasmatic Diseases" (I., 1) may be included.

(*d*) "Scurvy" (III.) is included with "Purpura" (IV.).

(*e*) "Lupus" (VI., 11) included with "Cancer" (IV.).

(*f*) "Anæmia, Chlorosis, and Leucocythæmia" (IV.) distributed over other heads, viz.:—Anæmia with "Dropsy" (VIII.), Chlorosis with "Diseases of Menstruation" (VI., 8), and Leucocythæmia with "Other Diseases of the Circulatory System" (VI., 3).

(*g*) Prior to 1886 "Diabetes Mellitus" (IV.) includes cases of "Diabetes Insipidus," now classed with "Diseases of the Bladder" (VI., 7).

(*h*) "Atelectasis" (V.) included with "Debility" (VIII).

(*i*) "Softening of the Brain" (VI., 1) and "Diseases of the Ear and Eye" (VI., 2) included with "Other Diseases of the Nervous System."

(*j*) "Laryngismus Stridulus" (VI., 1) included with "Laryngitis" (VI., 4).

(*k*) "Epistaxis and Diseases of Nose" (VI., 2) included with "Other Diseases of the Respiratory System" (VI., 4).

(*l*) "Senile Gangrene" (VI., 3) and "Bedsore" (VI., 11) classed under "Mortification" (VIII.).

(*m*) "Valvular Disease," "Hypertrophy of Heart," "Angina Pectoris," and "Syncope" classed as "Other Diseases of the Circulatory System."

(*n*) "Other Diseases of Larynx and Trachea" distributed over "Laryngitis" and "Croup."

(*o*) "Stomatitis," except in the few cases given, included with "Other Diseases of Stomach, &c."

(*p*) "Diseases of the Lymphatic System" (VI., 6) distributed over other heads.

(*q*) "Addison's Disease" (VI., 6), "Uræmia," "Hæmaturia," and "Disease of Prostate" (VI., 7) included with "Other Diseases of the Urinary System" (VI., 7).

(*r*) "Pelvic Abscess" and "Perineal Abscess" (VI., 8) included with "Abscess" (VIII.).

(*s*) "Caries, Necrosis" (VI., 10) included with "Others" of same Sub-Class.

* For cases of Diphtheritic Croup and Croup, see Class VI., Sub-Class 4, *post*.

† Including Hæmoptysis.

‡ These deaths occurred in the Sanatorium, Williamstown, in 1884, but were not registered until 1885.

§ Including 1 case of justifiable homicide in 1893, and 1 case of justifiable homicide (a burglar shot by a householder), in 1894.

NOTE.—The deaths occurring in *Hospitals, Asylums, &c.*, are shown separately, they having been eliminated from the sub-districts in which they were recorded. If these were distributed over the various districts, the deaths in each district would, of course, be proportionately increased.

* Included in these areas are parks, gardens, and other public reserves, which in Melbourne City cover an area of 1,723 acres, in North Melbourne of 10, in Fitzroy of 41, in Collingwood of 39, in Richmond of 190, in Prahran of 23, in South Melbourne of 482, in Port Melbourne of 80, in St. Kilda of 250, in Brighton of 167, in Essendon of 65, in Flemington and Kensington of 307, in Hawthorn of 15, in Kew of 634, in Footscray of 46, in Williamstown of 446, and in Northcote of 14. There are also 782 acres in "Remainder of District." The sum of the areas in all the sub-districts amounts to 5,314 acres.——† Including the Melbourne, the Homœopathic, the Alfred, the Women's, the St. Vincent's, and the Children's Hospitals; the Austin Hospital for Incurables; the Metropolitan and Yarra Bend Lunatic Asylums; the Immigrants' Home, the Benevolent Asylum, the Infant Asylum, and the Home of the Little Sisters of the Poor, Northcote. For the deaths which occurred in each of these institutions, see special table on next page.

NOTE.—This table, which is supplementary to the preceding one, does not include all the public institutions in Melbourne and suburbs, but only such as have a high rate of mortality, and consequently would, if included, have a tendency to swell the general mortality of the sub-districts in which they are situated. In 1895 the deaths in all the principal public institutions—including, besides those enumerated above, gaols and penal establishments, industrial schools, orphanages, female refuges, &c.—numbered 1,619, particulars of which will be found in various portions of the *Statistical Register*. The numbers given are those of deaths *registered* during each year, and consequently may not agree exactly with those which actually occurred in the institutions during the same period.

* Deaths of infants born in the institution are also included.——† This Hospital was removed from Melbourne City to South Melbourne on 1st October, 1885. ——‡ Partly in South Melbourne City.

				74,949	37,308	112,257
Estimated increase during the year				...	4,744	2,648
Estimated decrease during the year				2,096	...	...
Estimated population on the 1st January, 1895				607,260	571,843	1,179,103
Estimated population on the 31st December, 1895				605,164	576,587	1,181,751
Estimated mean population of the year				605,810	574,230	1,180,040

NOTE.—In this estimate of population allowance has been made for the unrecorded departures which have occurred since the Census of 1891 was taken. Such departures, between the date of the Census and the end of 1895, are estimated to have amounted to 31,869, viz., 24,811 of males and 7,058 of females. Had this allowance not been made, the population of Victoria would have apparently amounted at the end of 1895 to 1,213,620, viz., 629,975 males and 583,645 females. On the 30th June, 1896, the estimated population was 1,177,444.

NOTE.—In consequence of the migration returns being inflated by the inclusion of persons passing through Victorian ports *en route* to other countries, the figures in the lower half of the above table are misleading as a guide to the movements of population as between Victoria and other colonies and countries individually. The net emigration of 11,127 persons to Western Australia, for example, consists not only of Victorians, but also of emigrants bound for that colony from New South Wales, Queensland, Tasmania, and New Zealand, in vessels which happen to call in on their way at the port of Melbourne. Hence this number may be regarded as practically the net emigration from the whole of Eastern Australasia (including Tasmania and New Zealand).

STATISTICAL REGISTER OF VICTORIA, 1895.

APPENDIX TO PART POPULATION.

INTRODUCTION.

These statistics are compiled in accordance with a new schedule framed in this office in 1896, and approved by several of the leading experts in municipal accounts, with a view of obtaining a clearer and a more comprehensive and adequate idea of the municipal finances of the colony, the statistics of which have hitherto been very imperfect. They consist of three main divisions, viz. :—(1) Ordinary revenue account ; (2) Loan account ; and (3) Assets and liabilities. Under the first division the principle adopted was to eliminate as far as possible from the one side of the account all items which were not strictly revenue, and from the other all corresponding items of expenditure. According to this principle are excluded not only loan receipts and expenditure, refunds, transfers, and book entries of all descriptions ; but also, as far as possible, all trust or *quasi* trust accounts, such as deposits on contracts, bonuses from Government for purchase of wire netting, and contributions from other municipalities towards their share of joint works executed on behalf of such municipalities ; and, to insure uniformity and accuracy, the returns in which these items were in the first instance included have been corrected from the printed balance-sheets. Under the second division are shown, besides the receipts from loans raised and the expenditure on authorized loan services during the year, the balances of loans unexpended, distinguishing what portions of these have been temporarily appropriated for other than the authorized purposes. The assets and liabilities are dealt with under three subdivisions—the "Municipal Fund," or general assets and liabilities ; the "Loan fund," on one side of which are placed the full amounts of loans outstanding, and on the other the sinking funds and other assets which appear as a set-off ; and "Property," the value of which, owing to the difficulty of valuing municipal property, is often vague and unsatisfactory, and in many cases omitted altogether.

In the case of loans, full particulars are set forth as to interest, currency, and purposes for which contracted (as far as possible) whilst loans borrowed from the Government are distinguished from those borrowed from the public direct. Particulars are also given of loans raised during the year and the terms upon which floated.

A difficulty was met with in regard to the apportionment of loans on severance, which was overcome by entering the full amount of the loan as a liability to the municipality which originally borrowed the money, and placing as a set-off in the assets (under loan fund) an amount equivalent to the portion due by the severed municipality ; and in the case of the newly-created municipality, the liability is entered under "Other liabilities" in the loan fund. These items are specially noted in the returns ; and in the totals, the original loans are separately distinguished. Again, in the case of payments towards interest and sinking funds, payments by the newly-constituted shire are specially noted and shown separately in the totals, so that they might be omitted when it is desired to find the net payments by municipalities ; whilst the amounts received by the original, from the newly-constituted municipality to cover such payments are entered under "Other receipts."

NOTE.—Prior to 1892, particulars relating to liquidations and compositions were not returned.
* As shown by the schedules.
† Gross value of estates.
‡ As shown in Debtors' Statements.
§ This large apparent surplus resulted from the fact that the declared assets in 1887 were largely made up of a debt of £570,597 set down as due by the Crown to the estate of W. R. Merry. Had this not been included, the declared assets, as compared with the declared liabilities, would have shown an apparent deficiency of £125,106.
‖ Exclusive of the assets in the insolvent estate of Miss E. J. Spence who filed a schedule showing liabilities £2,512 10s. 0½d., and assets £3,772,408 11s. 2d.

NOTE.—The material for this Return has been received from year to year from the Police Department.

APPREHENSIONS, COMMITMENTS, ETC.

RETURN showing the Number of Arrests of Males and Females by the Victorian Police during the Year 1895, and the Principal Offences with which charged; also the Numbers Discharged by the Magistrates, Summarily Convicted, held to Bail, &c., and Committed for Trial.

NOTE 1.—This and the seven subsequent Tables relate, as nearly as possible, to distinct arrests, not offences with which charged, as in years prior to 1893. This method eliminates not only multiple charges, but also such secondary charges, often resulting from the arrest on a primary charge, as assaulting or resisting the police, damage to uniform, using abusive language, &c. For the number of charges in respect to which arrests were made see Table on page 29, *post*.

NOTE 2.—*Revised Classification of Offences.*—The classification of offences has been revised, so as to be more in accordance with the *Crimes Act* 1890, and in a few cases the offences have been re-arranged. The offences "Assaulting, &c., the Police" and "Rescuing, &c., from Custody" have been transferred from "Offences against the Person" to "Offences against Good Order"; offences against females are now given in greater detail; larceny by persons under 16, or of sums under £2, are now distinguished from other cases of simple larceny; offences classed as "Default of Bail" have been transferred from "Offences against Public Welfare" to "Offences against Carrying out the Laws."

NOTE 3.—*Drunkenness.*—In 1895, moreover, all arrests of persons charged with two or more offences, in which drunkenness formed one of the charges, have been entered under Drunkenness. In 1893 and 1894 it was the rule, except in regard to such secondary charges as "Assaulting or resisting the Police, damage to uniform, or abusive language," to class such cases under other heads rather than "Drunkenness." Moreover, a supplementary table is now given for the first time, at page 20, showing the various offences with which drunkards were charged.

* When comparing the figures for different years, consult also Note 3 on page 18, *ante*.—† Assaulting, &c., Police have been transferred from "Assaults" to "Offences against Good Order" since last publication of these Statistics.—‡ Decrease due to assaults against the police being now treated as secondary offences, which are not entered. The difference goes to swell the number charged with drunkenness.—§ Increase due to an Act passed in December, 1891, making street soliciting by prostitutes a separate offence. Prior to this there was no direct means of dealing with prostitutes plying their calling in the streets.—‖ Under Vagrancy (undefined) is included Rogue and Vagabond (undefined) prior to 1895.

NOTE.—Pastoral and grazing area leases are granted for any period not exceeding fourteen years, and Mallee pastoral leases for any period not exceeding twenty years, from the commencement of the Acts, 29th December, 1884, in the former, and 1st December, 1883, in the latter case; whilst grazing licences are only of a temporary character (renewable annually), and are only granted for waste lands of the Crown not required under the principal sections of the Act. The Mallee pastoral leases, as the name indicates, are confined to the Mallee country, in the North-Western portion of the colony, which was formerly dealt with under a special Act—the Mallee Pastoral Leases Act, the clauses of which were subsequently embodied in the Land Act 1890. The lessees of grazing areas have the privilege of selecting (*i.e.*, purchasing under the deferred payment system on certain conditions) an area not exceeding 320 acres out of their lease for agricultural purposes.

NOTE.—When a holding extends into two or more counties, it is returned as being in the county wherein the homestead is situated. There was no cultivation for the county of Millewa. The areas of the counties vary from 588,800 acres for Heytesbury (the smallest county) to 3,797,120 acres for Karkarooc (the largest); whilst the average area is 1,520,155 acres. The areas are given on page 39 *post*.

* See table at pages 33 and 34 *post*.

* All the flour returned as on railway stations is assumed to have been obtained from old wheat.

NOTE.—The stocks referred to are restricted to those actually stored within the limits of the premises named at the head of each column, stocks held by the owner or occupier in other places being strictly excluded. No account was taken except of places where wheat or flour was stored in bulk; and, consequently, ordinary supplies in bakers' and produce dealers' hands are omitted. Stocks in transit to railways or mills and stores have been included under those heads respectively. New wheat and flour were also returned as follow:—On Railways—Wheat, 73,855 bags; in Mills and Stores—Wheat, 54,863 bags, Flour, 3,935 bags.

Return of the Ownership of Stocks of Wheat and Flour remaining over from previous seasons on Railway Premises, in Mills and Stores, and on Farms on 31st December, 1895.

NOTE.—The above information was obtained by means of circulars enclosing cards marked A and B respectively, addressed in May, 1896, to the principal bakers in Melbourne and suburbs, and the principal extra-metropolitan towns of the colony. Card A was to be filled up immediately with the average current consumption per lunar month entered thereon; but card B was to be retained for five weeks, and to be filled up with the actual consumption for each of five consecutive weeks. The families were to be selected at random from amongst the baker's customers, and the consumption of bread in Card A was to be entered by the baker, but that in all other cases by the customers. In all, circulars were sent out to 33 bakers, together with 485 cards each of A and B; but only eighteen bakers responded by returning or causing to be returned duly completed 159 cards A, and 122 cards B; whilst in addition fourteen cards A and two cards B were received from other sources. These cards represent the experience of 193 distinct families, or 1,153 persons (including children, infants, and servants). The average result of the whole is close on 5 (4·94) bushels per head per annum. In reducing the various materials to bushels of wheat, it has been assumed that a bushel of wheat yields, with other materials, the following quantities of the products named:—Bread, 56 lbs.; Flour, 41½ lbs.; Biscuit, 56 lbs.; Cake, Pastry, &c., 125 lbs.

NOTE.—It is stated that it takes 4lbs. 6oz. of dough to make a loaf of bread weighing 4 lbs.

* According to quality of flour.

† One baker returned this for fancy bread, and stated that one loaf more could be obtained for plain bread, and the other considered it a fair all round average.

‡ One baker returned this as an average for all makes of bread.

§ From roller flour; one loaf less if roller and stone flour combined.

‖ According to quality of flour; very dry flour makes 70, other less.

¶ One baker stated that the yeast used was prepared from malt, and that the malt has a distinct hydrolizing effect upon flour—enabling it to hold a considerable amount more water in suspension by the action of the diastase upon the starch than flour treated without malt.

NOTE.—It will be noticed that, at the earliest, the wheat harvest begins on the 1st November and ends on the 30th December; and, at the latest, it begins on the 26th December and ends on the 15th March. It has, on the average, a duration of about eight weeks. From the averages shown in the last two columns but one, it is computed that the quantity of wheat used for seed in 1895-6 was 1,271,462 bushels for wheat grown for grain, and 201,613 bushels for that grown for hay, or a total of 1,473,075 bushels.

* Allowing for the relative areas under crop in the various shires.

NOTE.—Prior to 1895–6 the information was returned for all orchards, whether for private use or not; but for 1895–6 it was restricted to orchards growing fruit for sale. Thus, the produce in 1894–5 was grown on 36,291 acres, but that for 1895–6 on only 31,133 acres (which is exclusive of 4,881 acres under orchards grown for private use).

* Many of the growers kept no record of the quantities of fruit gathered during 1892–3, therefore the produce for that season is understated.

† Exclusive of orchards grown for private use. See note *supra*.

NOTE.—The items in this Table do not represent the whole area under the respective crops grown, but only of such as were taken cognizance of by the collectors. The minor crops are often raised in gardens, in which case the various descriptions would not be distinguished. They may be also grown upon allotments of one acre and less in extent, and these the collectors are not called upon to visit. The Table must, therefore, be looked upon as indicating the nature of certain crops grown in Victoria rather than the full extent to which those crops are cultivated.

NOTE.—For returns for each municipality see Census of 1891, or page 620 of the Statistical Register for 1890.

* Census years. Complete returns of live stock are only furnished in Census years, but it was customary prior to 1896 to estimate the numbers for intercensal years by adding on, or deducting from, the numbers as returned by the last Census, an increase or decrease, as the case might be, based on estimated percentages furnished by the municipal authorities. As, however, this method was found most unreliable, it has been decided to abandon it.

† On agricultural and dairy farms only. There were also 217,930 calves.

* Many of the bee-keepers reported that a great number of bees died during 1895–6, owing to the dryness of the season and the scarcity of flowers.

MANUFACTORIES, WORKS, ETC.—(I.)—DISTRICTS.

*** As a general rule establishments employing less than four hands were not considered as manufactories, and were not returned unless machinery worked by steam, gas, electric, water, wind, or horse power was used, or the industry was of a novel or interesting description. An exception has been made in the case of some of the factories, formerly included, whose hands had owing to the depression, temporarily fallen below the prescribed number. Where manufacturing was carried on in connexion with a trading or commercial business, as in a large drapery establishment, care was taken to include in the number of hands employed only those actually engaged in the manufacturing portion of the business. On this occasion a distinction was made, in the case of hands employed, between the different kinds of workers; and, in the case of horse-power, between the full capacity of engines and the power actually used. Stone quarries, which were formerly included, are now omitted, but are shown in a subsidiary table. The particulars relating to creameries are now included for the first time, as their operations are so closely allied to butter factories; but creameries have not been reckoned as separate establishments, being regarded merely as branches of butter factories. The returns relate, with few exceptions, to the year ended 31st December. See also footnotes 3 and 4 at end of Table II., as well as the note to second table on page 81 *post*.

* The returns of 2 of the establishments related to the year ended August, 3 ended September, 3 ended October, 2 ended November, and 1,940 ended December, 1895; 7 ended January, 14 ended February, and 29 ended March, 1896; whilst the returns of 804 had no period stated, but it is assumed they related to the year ended December, 1895.

† Unskilled labour is with machinery so extensively employed that many of those returned as factory workers might not inappropriately have been returned under this head.

‡ The figures in this column apply to purchased lands only. One hundred and seventy-three establishments and 42 creameries were carried on upon Crown lands, and in these cases no valuation of the land has been given.

§ Home workers.

‖ Creameries, which are not reckoned as separate establishments. See note at head of this table.

¶ These particulars have been combined in accordance with a promise made to the persons supplying the information that the contents of individual schedules would not be published.

** Including the power of seventeen gas-engines and one electric-engine where steam-engines are also used, and one electric-engine where a gas-engine is also used, amounting to 233 full and 131 actually used horse-power.

MANUFACTORIES, WORKS, ETC.—(II.)—NATURE OF INDUSTRIES.

[552]

*** As a general rule establishments employing less than four hands were not considered as manufactories, and were not returned unless machinery worked by steam, gas, electric, water, wind, or horse power was used, or the industry was of a novel or interesting description. An exception has been made in the case of some of the factories, formerly included, whose hands had, owing to the depression, temporarily fallen below the prescribed number. Where manufacturing was carried on in connexion with a trading or commercial business, as in a large drapery establishment, care was taken to include in the number of hands employed only those actually engaged in the manufacturing portion of the business. On this occasion a distinction was made, in the case of hands employed, between the different kinds of workers; and, in the case of horse-power, between the full capacity of engines and the power actually used. Stone quarries, which were formerly included, are now omitted, but are shown in a subsidiary table. The particulars relating to creameries are now included for the first time, as their operations are so closely allied to butter factories; but creameries have not been reckoned as separate establishments, being regarded merely as branches of butter factories. The returns relate, with few exceptions, to the year ended 31st December. See also footnotes 3 and 4 at end of this table, as well as the note to second table on page 81 *post*.

* For exact dates to which the returns are made up, see footnote * to last table.

† Unskilled labour is with machinery so extensively employed that many of those returned as factory workers might not inappropriately have been returned under this head.

‡ The figures in this column apply to purchased land only. One hundred and seventy-three establishments and 42 creameries were carried on upon Crown lands, in these cases no valuation of the land has been given.

* The figures in this column apply to purchased land only. Eleven of the factories and 42 of the creameries were on Crown lands; in these cases no valuation has been given.
† One factory also made cheese; whilst in Warrnambool Shire all four made cheese.
‡ Exclusive of 19 butter factories, which also made cheese.
§ Creameries are not counted as separate factories, but are regarded merely as branches of butter factories. Two hundred and sixty-eight of the creameries employed steam-engines, eleven employed horses, and five manual labour to work the machinery.

* The Districts—devised for statistical and geographical purposes—correspond as nearly as possible with the counties named below:—*Central District*—Mornington, Evelyn, Bourke, and Grant; *North Central*—Anglesey, Dalhousie, and Talbot; *Western District*—Follett, Dundas, Normanby, Villiers, Heytesbury, Polwarth, Grenville, Hampden, and Ripon; *North-Western District*—Millewa, Weeah, Karkarooc, Tatchera, Gladstone, Kara Kara, Borung, and Lowan; *Northern District*—Gunbower, Bendigo, and Rodney; *North-Eastern District*—Benambra, Bogong, Delatite, and Moira; and *Gippsland District*—Croajingolong, Tambo, Dargo, Tanjil, Buln Buln, and Wonnangatta. The statistics being collected by shires, and not by counties, the shires which overlap the boundaries have been considered as in those Districts in which the principal portions were situated.

† This evidently does not include an allowance for milk received from farmers in the form of cream, except in the case of one large factory. It is estimated that the milk received must have been not less than 77,520,000 gallons. For total quantity of milk produced in various parts of the colony, and number of milch cows, see page 44 *ante*.

‡ Probably understated owing to cream received from farmers being omitted in some cases; it might be set down more correctly at 74,593,000 gallons.

§ Beside the butter and cheese made in factories, large quantities were made on farms, for which see next table

NOTE.—The figures relating to the spirits distilled and manufactured for the last four years have been furnished by the Chief Inspector of Distilleries. The information previously published was obtained direct from the distilleries. The quantities are shown in proof gallons, but if in liquid gallons, they would be 12 or 13 per cent. smaller. As a set-off against the quantity distilled, 31,235 proof gallons were wasted in bond in 1893, 34,465 gallons in 1894, and 33,540 gallons in 1895. Spirits made by wine-growers for fortifying wine are not included. The following quantities were also distilled, viz., 28,778 proof gallons by 42 vine-growers in 1893, 23,794 proof gallons (including 1,455 gallons of wine brandy) by 40 vine-growers in 1894, and 28,053 proof gallons by 40 vine-growers in 1895.

* See footnote * at foot of page 81 *post*.——† The letter (*f*) indicates full capacity, and (*a*) actually used.——‡ One distillery was situated in each of the following municipalities:—The cities of Bendigo and Collingwood, the town of Port Melbourne, and the shires of Benalla, Buninyong, Goulburn, and Tungamah.

Note.—In 1895, the particulars of creameries, except as regards their number, have been included; whilst the hands, plant, land, and buildings employed in connexion with the sale and distribution of gas and electricity—formerly erroneously included—were carefully eliminated. If the same basis as in 1894 were followed, the number of establishments in 1895 would have been 2,836; horse-power, 35,267; hands employed—males, 35,566, females, 10,627; value of machinery and plant, £6,670,130; of lands, £2,884,880; and of buildings and improvements, £3,955,600. The returns for 1895, however—especially in the case of Melbourne City—are more complete than on previous occasions. See also statement at head of the table on page 51 *ante*.

* Prior to 1895 the returns were furnished as for the year ended March, but it is believed that practically the information related to the year ended the 31st December previously. The periods in the table have, therefore, been put back one year as compared with the corresponding table in the preceding Statistical Registers.

† In previous Registers stone quarries were included, but in this table they have been excluded. For stone quarries see page 85.

NOTE.—In connexion with eleven of these quarries there were stone-breaking (road metal) works, connected with most of which there were tar-pavement works.

* The figures in this column apply to purchased land only. Nine of the stone quarries were on Crown lands, and in these cases no valuation of the land has been given.

† These particulars have been combined in accordance with a promise made to the persons supplying the information that the contents of individual schedules would not be published. One of the stone quarries to which they relate was situated in each of the following urban municipalities:—Brunswick, Footscray, Malmsbury, Melbourne, Richmond, and Williamstown; and one each in the following shires:—Berwick, Coburg, Corio, Heidelberg, Metcalfe, and Preston.

‡ The value of the bluestone raised was £17,200, sand and freestone £519, and granite £329.

NOTES.—(1) The deepest mine in the colony (3,302 feet) is Lansell's 180 in the Sandhurst district. (2) The approximate value of all mining plant (alluvial and quartz) in 1892 was £1,772,524, but since that year similar information has not been compiled. For value in each year prior to 1892, see Statistical Register for 1891 and previous years.

* As estimated by the mining registrars; the actual yield for the colony in 1895 is shown in the table at head of this page.

NOTE.—This Return does not show *the total quantities* treated in the colony, but only the yield from certain crushings, &c., respecting which the mining registrars have been able to obtain information. Similar averages for quartz for the ten consecutive years 1885 to 1894 were as follow in dwts. and grs.:—10-1, 9-10, 9-10, 9-18, 9-19, 9-4, 9-4, 9-23, 9-6, and 8-8.

NOTE.—For particulars for each year, see folding sheet at the commencement of this volume. The estimated quantity raised in 1896 was 805,087 ozs. Standard gold (·91667 fine) is worth £3 17s. 10½d. per oz., and fine gold £4 4s. 11½d. per oz. The gold received at the Melbourne Mint is considerably over the standard. In 1895, for example, the fineness was ·9320, which would be worth £3 19s. 2d. per oz.

[1] These amounts were received many years since. No Government aid has ever been given towards maintenance.——[2] Regular masters only. Visiting masters are not included.——[3] In connexion with the Melbourne Grammar School there are two "Foundation Scholarships" giving exemption from tuition fees for boys under 14, open only to members of the school tenable at it for three years; a "Witherby Scholarship" of the same value; several choral scholarships; scholarships offered by the Head Master for open competition in February and July of each year for boys, both day boys and boarders, of sufficient merit and under 11, 13, or 15 years of age; and two exhibitions of the annual value of £20, tenable for two years, open to the competition of boys proceeding to the Melbourne University, whose names have been for the two previous years on the school register, and who have passed the Matriculation Examination with credit.——[4] A scholarship of the value of £60 per annum, tenable for two years, has been given by Mrs. F. W. Armytage, the conditions of tenure being that the holder shall be a resident student of Trinity College, Melbourne, and shall have been for at least two years previously a pupil of the Church of England Grammar School, Geelong. The Head Master receives one son of a clergyman of the Church of England as a resident boarder, exempt from all school fees and cost of residence.——[5] In connexion with the Scotch College, scholarships of the value of 10 or 20 guineas each are given to students who gain a satisfactory position in the class honour lists at the Matriculation Examination, such scholarships to be tenable for one year. Several entrance scholarships are also given of the value of 10 or 20 guineas, tenable for two years. These are open to be competed for by all boys entering the college, irrespective of their former place of education.——[6] In connexion with the Wesley College the objects are—(1) To impart a sound general education; (2) to prepare pupils for matriculation, and the first year course in arts, law, engineering, or medicine at the University; (3) to provide special training for business life. Eight scholarships are offered for competition—the "Walter Powell" of £20 a year for two years, tenable at the University; the "Draper" of £25, tenable for one year at the college; four scholarships of the value of 16 guineas for boys in the college; and two entrance scholarships, also of 16 guineas each.——[7] St. Francis Xavier's College was opened during the year 1878, and many of the scholars were transferred to it from St. Patrick's, of which it is a branch.

* It is probable that the figures in these columns do not always indicate distinct individuals, but acts of relief, and that a person relieved over-and-over again is the cause of as many entries as he is times relieved.

NOTE.—The returns of some of the societies do not distinguish the sexes of the persons relieved, hence the sum of the males and females on the total line does not agree with the total of both sexes. The returns of receipts and expenditure represent the *net* amounts received and expended, exclusive of credit and debit balances, &c.

NOTE.—This Society does not aim to distribute charity, but ascertains by investigation whether applicants for relief are deserving of assistance, and thereby assures charitably disposed people that their sympathies are being properly exercised. It maintains a labour test, so that the means of earning food and shelter shall be open to applicants able and willing to work. It strives to induce co-operation between the charities, the recognition of the necessity of organization in the work of charitable institutions, and the compilation of records of value to the sociologist and philanthropist. It also strives to create a centre of intelligence bearing on charitable work generally.

NOTE.—This return was furnished by the Secretary, Mr. D. Fraser.
